Adrian Ledesma

FULL-STACK SOFTWARE DEVELOPER

Solutions-oriented developer with hands-on experience developing web-based applications including e-commerce applications. Experience in all phases of Software Development Life Cycle. Projects applied in Agile Methodology. Strong analytical and problem-solving skills while utilizing multiple programming languages and technologies.

Proactive leader and an efficient team-player with the ability to be influential and establish positive working relationships across the organization.

PROFESSIONAL WORK EXPERIENCE

CODING TEMPLE – Chicago, IL C#/.NET DEVELOPER

2017

- Built applications written in C#, JavaScript, HTML and CSS, in cohesion with APIs, Microsoft SQL Server, and the .NET Framework.
- Developed C# console application to retain a card catalog
- Built and managed databases using SQL and .NET for storing customer's information
- Created dynamic e-commerce application from front-end to back-end with ASP.NET MVC, HTML5, CSS3, JavaScript, AngularJS
- Utilized HTML and CSS to recreate the content and design of the website
- Added new feature requests, fixed bugs and trouble shoot
- Utilized browser development tools to track layout issues and debug JavaScript content

Advantage Solutions – Naperville, IL Business Analyst

2015-2016

I initially started as a Data Analyst, learning advanced techniques for Excel, where I recognized and solved data problems and inconsistencies alongside maintaining monthly balance sheets. It transitioned into using the advanced reporting (sales, market segmentation, promotional analysis) I created to communicate with various e-commerce clients on how to improve their digital marketing, sales, and overall business needs.

University of Illinois at Chicago- Chicago, IL Development & Marketing Coordinator

2013-2015

I networked extensively with student and community organizations to increase engagement and to structure more mutually beneficial endeavors. I assisted in programming a variety of events that benefitted the university and surrounding community, such as public speaking events and volunteering opportunities.
